
JDRF - Clinical Trials Advancing Metabolic Therapies for T1D

Descrição

The Juvenile Diabetes Research Foundation International (JDRF) (<https://www.jdrf.org/>) is the leading global organization funding type 1 diabetes (T1D) research. Its strength lies in its exclusive focus and singular influence on the worldwide effort to end T1D.

The goal of this funding opportunity (https://www.breakthrough1d.org/wp-content/uploads/2024/08/Breakthrough-T1D-RFA_Metabolic-Control_2024_final.pdf) is to target metabolic imbalances to improve glucometabolic outcomes in people with established type 1 diabetes (T1D). This funding opportunity will prioritize T1D clinical trials evaluating therapies either approved or in development for metabolic diseases such as T2D, obesity, and MAFLD.

Data Limite

October 31, 2024.

Elegibilidade

Applications may be submitted by domestic and foreign non-profit organizations, public and private, such as universities, colleges, hospitals, laboratories, units of state and local governments, and eligible agencies of the federal government. Applicants must hold an M.D., D.M.D., D.V.M., Ph.D., or equivalent and have a faculty position or equivalent at a college, university, medical school, or other research facility.

There are no citizenship requirements for this program. To assure continued excellence and diversity among applicants and awardees, Breakthrough T1D welcomes applications from all qualified individuals and encourages applications from persons with disabilities, women, and members of minority groups underrepresented in the sciences.

Valor Financiado

Up to \$2,000,000.
