
FMI - International MD-PhD Program 2025

Descrição

The Friedrich Miescher Institute (FMI) (<https://www.fmi.ch/>) is devoted to fundamental biomedical research aimed at understanding the basic molecular mechanisms of health and disease. FMI communicates and patents its findings to enable their translation into medical application. The Friedrich Miescher Institute contributes to the training of graduate students and postdoctoral fellows.

The International MD-PhD Program (<https://www.fmi.ch/education-careers/programs/#program>) is intended for individuals who have studied medicine and who wish to gain a deep knowledge in fundamental biological research by performing a PhD thesis. In the Program, medical doctors with an interest in fundamental scientific research work together with internationally recognized scientists in the fields of epigenetics, neurobiology, and quantitative biology, developing a research project with their group leader. A course of study at FMI leading to a PhD degree of the University of Basel typically lasts four years.

Data Limite

November 15, 2024.

Elegibilidade

Students applying to the Program must:

1. Hold, or anticipate to receive before their enrollment, a university degree that would qualify them to enter formal clinical training / residency (diploma in medicine or an approbation);
2. Have some laboratory research experience and have done an experimental master/diploma thesis, which must be approved by the University of Basel.

Valor Financiado

The FMI provides financial support to graduate students in accordance with the scale of the Swiss National Science Foundation (<https://www.fmi.ch/education-careers/programs/SNF.PhD.Salary.pdf>). Salary is generous relative to international standards for PhD students.

Forma de Solicitação

Applicants must apply Online (<https://wwwapp.fmi.ch/positions/md-phdgraduateappform/>).
